

# Set Fail Msg

Set fail message when directory does not exist

```
- name: Check if src directory exist in target machine
  win_stat:
    path: "{{ dirtoscan }}"
  register: srcdir_data
- name: Skip if src directory exist
  fail:
    msg: "Directory {{dirtoscan}} do not exist in {{inventory_hostname}}"
  when: not srcdir_data.stat.exists
```
