

# Sort Array Descending Order

```
// Sort Descending Date

tempArray = originalArray.slice();
tempArray.sort(function(a,b){
    return new Date(b.date) - new Date(a.date);
});
for (i = 0; i < tempArray.length; i++) {
    console.log(`\t${i + 1}) ${tempArray[i].date} - ${tempArray[i].displayName}`);
}
```
